**Rate of fire (approx. rd./min):** 1,000 - 1,150 Rd/min

**Colors :** Blued,

### **Description :**

The UZI PRO is the latest evolution featuring the most advanced firearms technologies. It is a major step for the UZI family in terms of the benefits gained from modern materials and design concepts in which modern polymers, MIL-STD 1913 (Picatinny) rails, an ergonomic shoulder stock, and a foldable hand grip were incorporated to obtain an up-to-date SMG.

The weapon was originated based on the user experience of Israeli Special Forces and has been redesigned to be lighter, more accurate, more reliable and still concealable.

All of these have been accomplished without compromising the functionality and reliability associated with the famous and legendary UZI. Since its first development the UZI continues to uphold the technological standards of the 21st century.
